

Reedge for new possibilities!

Product presentation

Updated March, 2020

Introduction

Reedge

Our vision

We believe in **creating a smaller, more reachable world** with larger networks

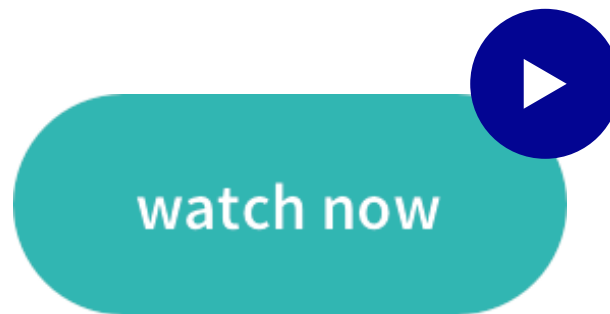

And do this by getting **the right information to the right people at the right time**

Resulting in **mobility management software** that delivers a smooth moving process for moving companies and individuals!

An introduction

From this vision, the Reedge team has built a product that has been completely designed and developed from scratch. An introduction by the team:

The Reedge ecosystem

Reedge

The ecosystem

Reedge is a modular system, which implies Reedge clients only pay for functionalities they need. It consists of:

- A basic framework, **Reedge Essentials**, that contains all functionality in order for the system to work, such as communications, admin functionality, financial features, CRM features, document management
- **Modules and features** that can be added on top of Reedge Essentials, created for a specific group of users

Scope

Reedge enables its users to enjoy a smoother moving process:

- **Move and relocation companies:** Easy-to-use move and relocation management functionality for move companies, DSP's and RMC's
- **Individuals / employees:** Whether you are moving for business or private purposes, manage and keep track of your entire move through Reedge!
- **Employers:** Nowadays, specific talents are needed anywhere in the world. Centrally manage global mobility for your employees from candidate selection to repatriation

Reedge Essentials & Moving

Reedge

Features

Version 1.0 of Reedge provides its users with several powerful features to manage their day-to-day operations:

- **Dashboard:** One central overview of performance, progress and tasks across all your assignments
- **CRM functionality:** manage all your clients and partners and their assignments
- **Admin functionality:** set up default templates for your assignments, so that services and workflows (pre-defined tasks) are pre-filled when you create a new assignment
- **Financial features:** easily create and send (multi-currency) quotations and invoices straight from Reedge
- **Communications:** communicate with colleagues, assign tasks to others and provide your customer with a personal Reedge Customer Portal
- **Assignment planning:** keep track of important due dates and get an overview of your entire assignment planning
- **Document management:** keep track of all digital documents of an assignment, share documents with your colleagues and make them instantly available for your customer
- **Moving features:** add and customize moving services, enter survey details or schedule and retrieve surveys via the powerful SurveyPro application by Move4U

Dashboard

Start your day with an overview of the most important information!

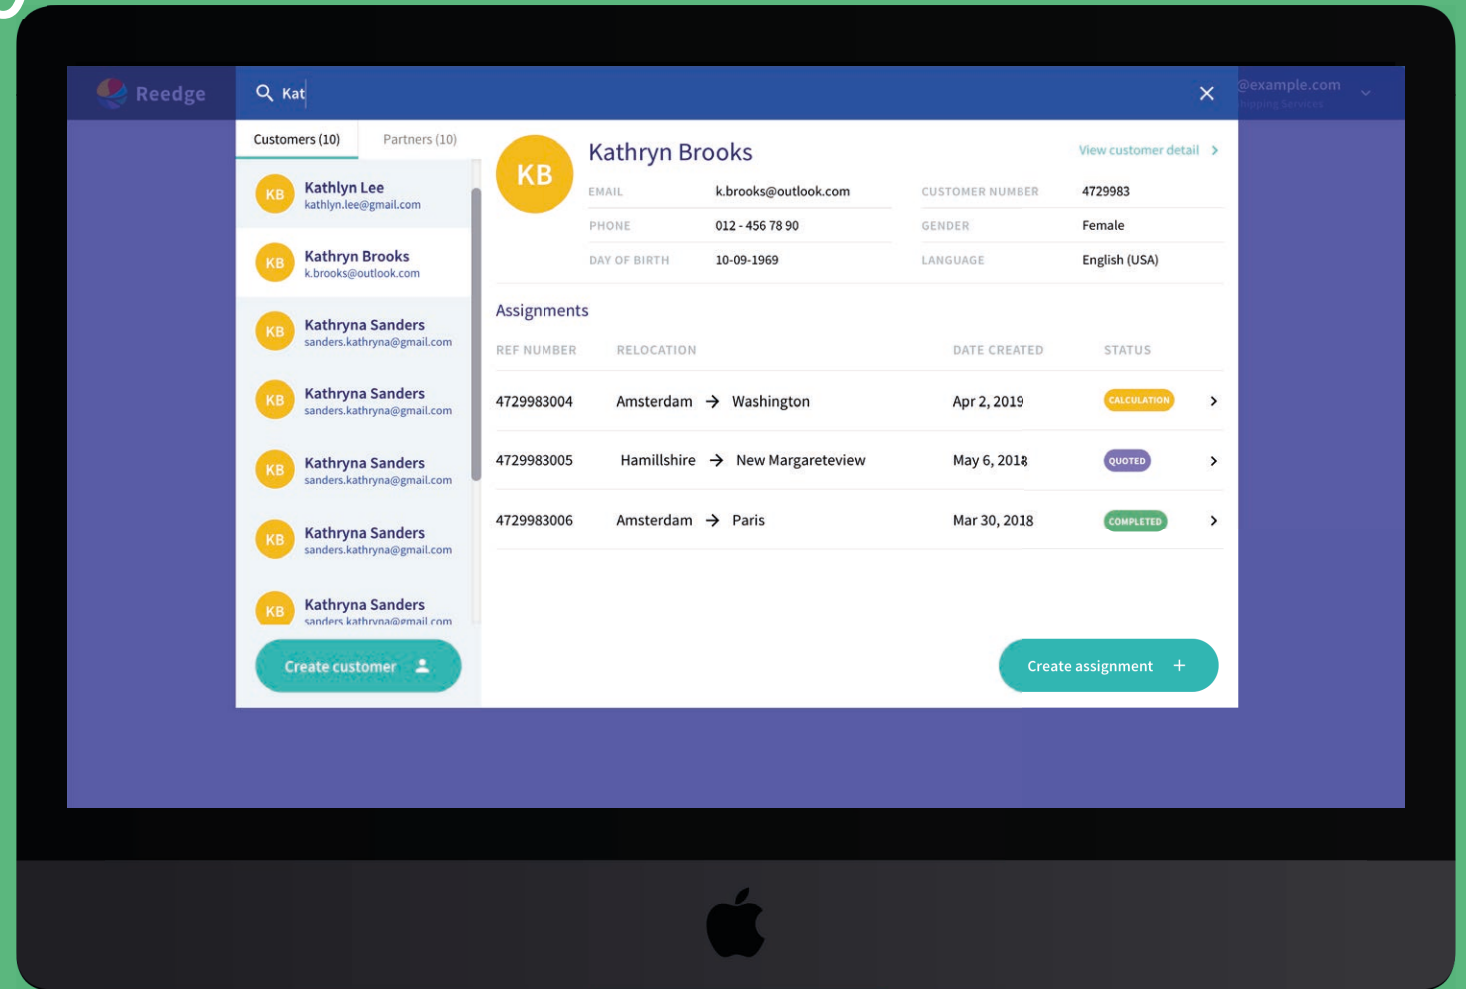

- View assignment progress and revenue
- See what's on your plate for the day
- Quickly navigate to your active assignments
- Check notifications of important events
- Search for or create new customers and assignments

CRM functionality

Manage each customer from lead to satisfied client!

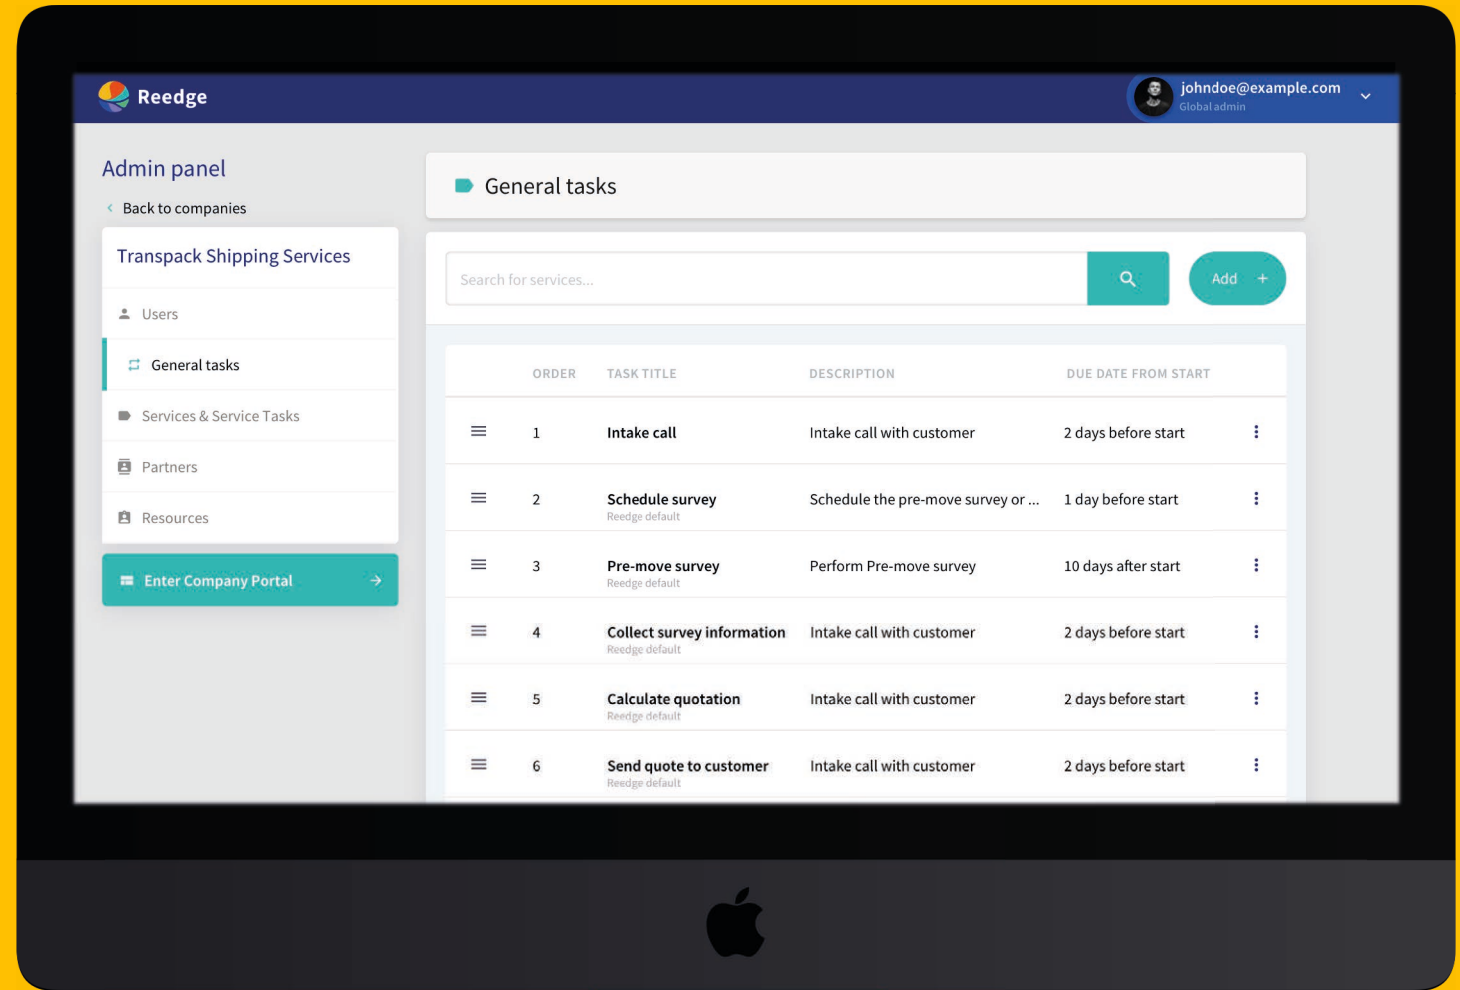

- Add new or edit existing clients and agents
- View all assignments belonging to a customer or agent
- Easily search for relations and assignments via name, customer number or email address – whatever you choose

Admin functionality

Customize your company's Reedge experience:

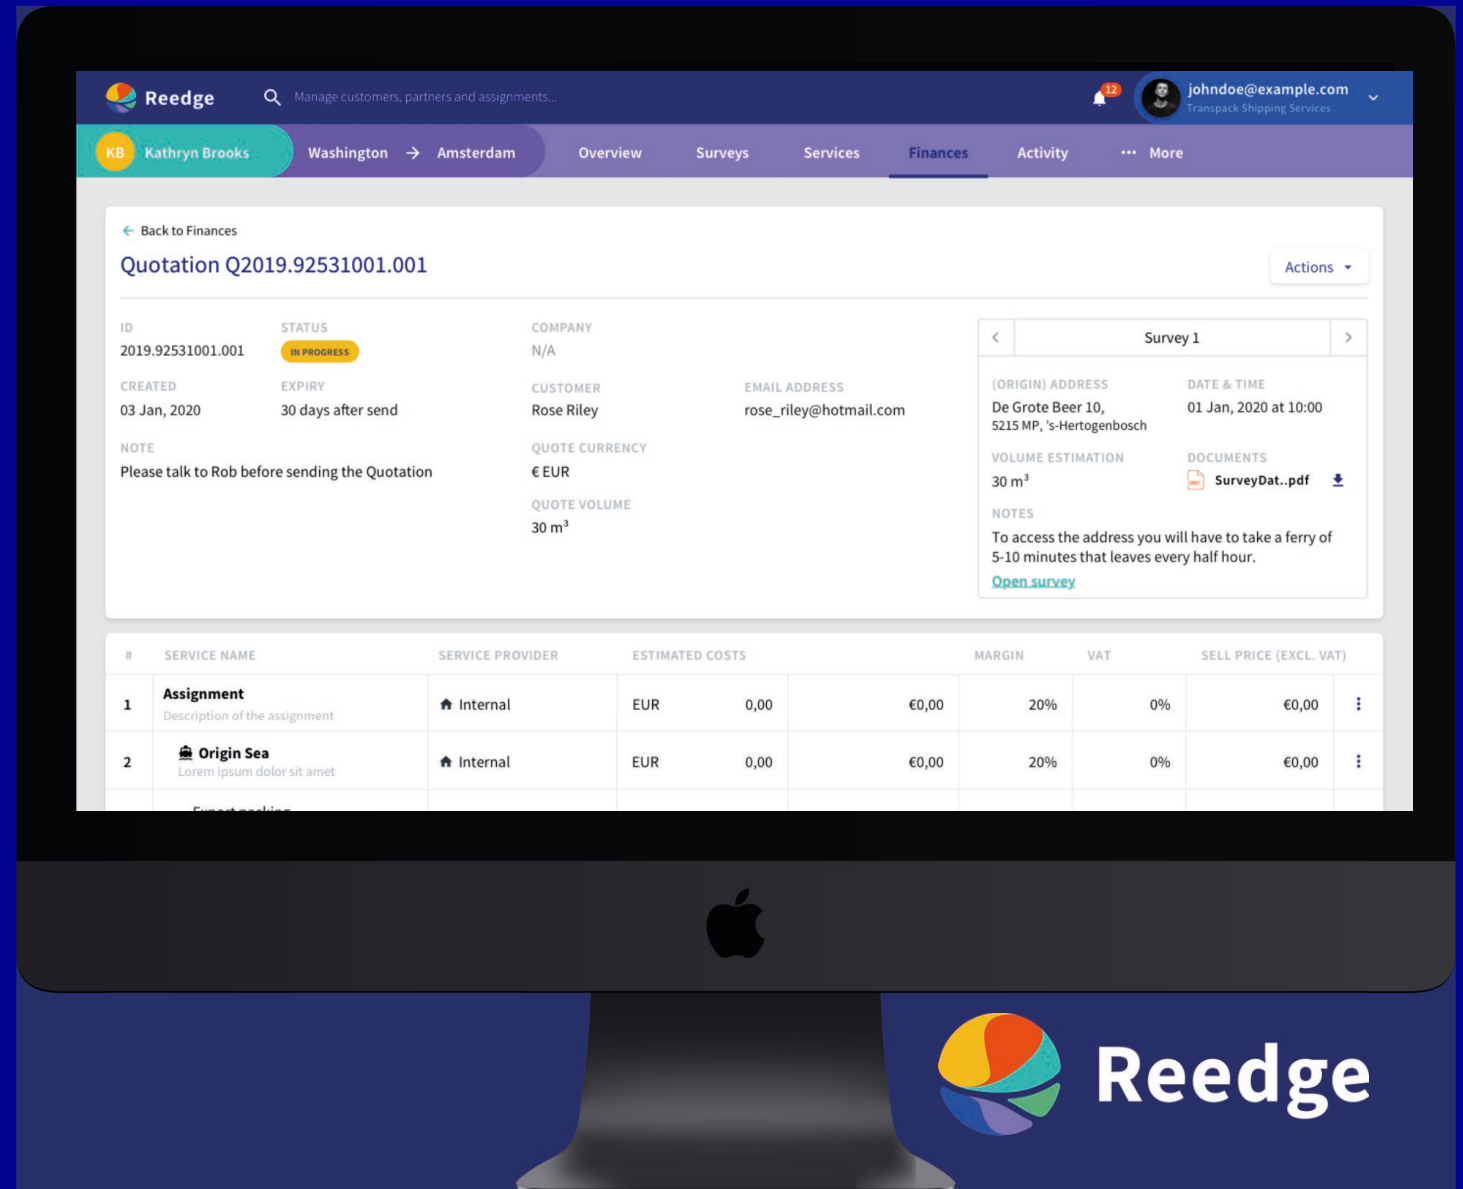

- Set up your default service offer, so you won't have to manually add services to new tasks over and over
- Add custom names for your services
- Create default tasks for each service and never forget a single to do again
- Manage your company's users and their roles
- Add personal contact persons to agents you frequently work with

Financial features

Creating quotations and invoices was never easier:

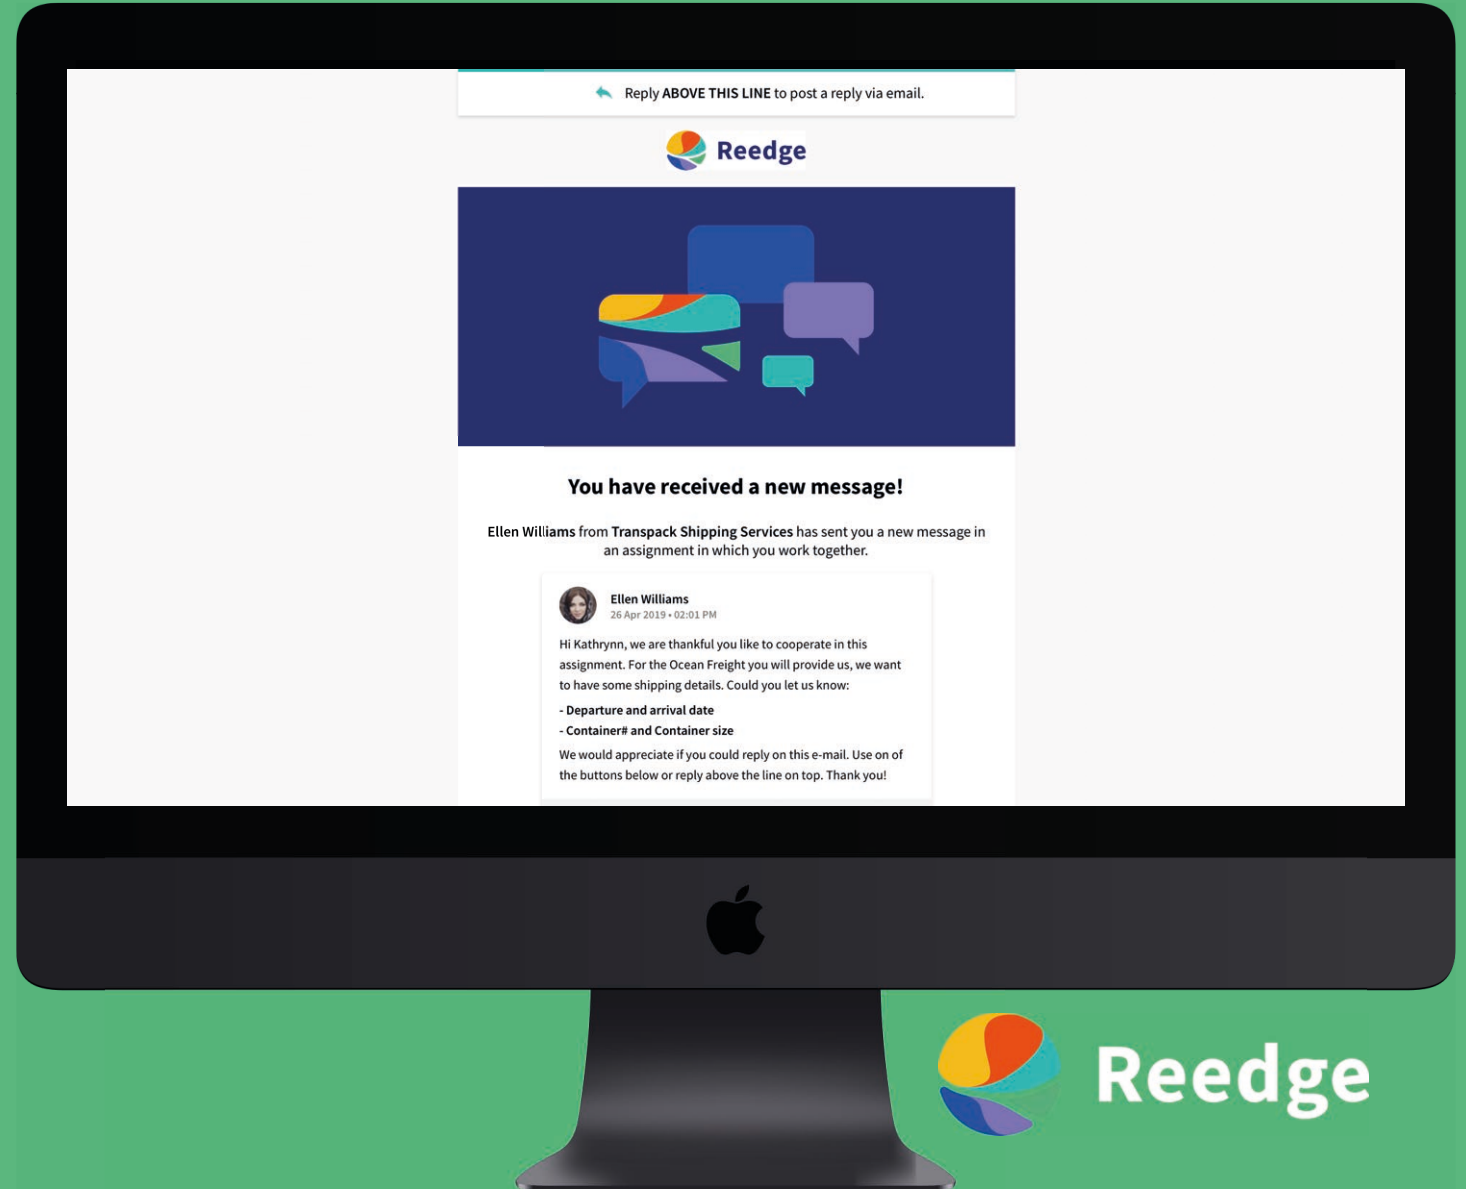

- A quotation is already waiting as soon as you create your assignment
- Quote on multiple levels: a lumpsum price, a price for all origin or destination services or a detailed quotation with rates for each service
- Flexible invoicing by clicking the services you want to invoice
- Send financial documents straight to your client's Customer Portal

Communications

Cooperate with your colleagues and your customer:

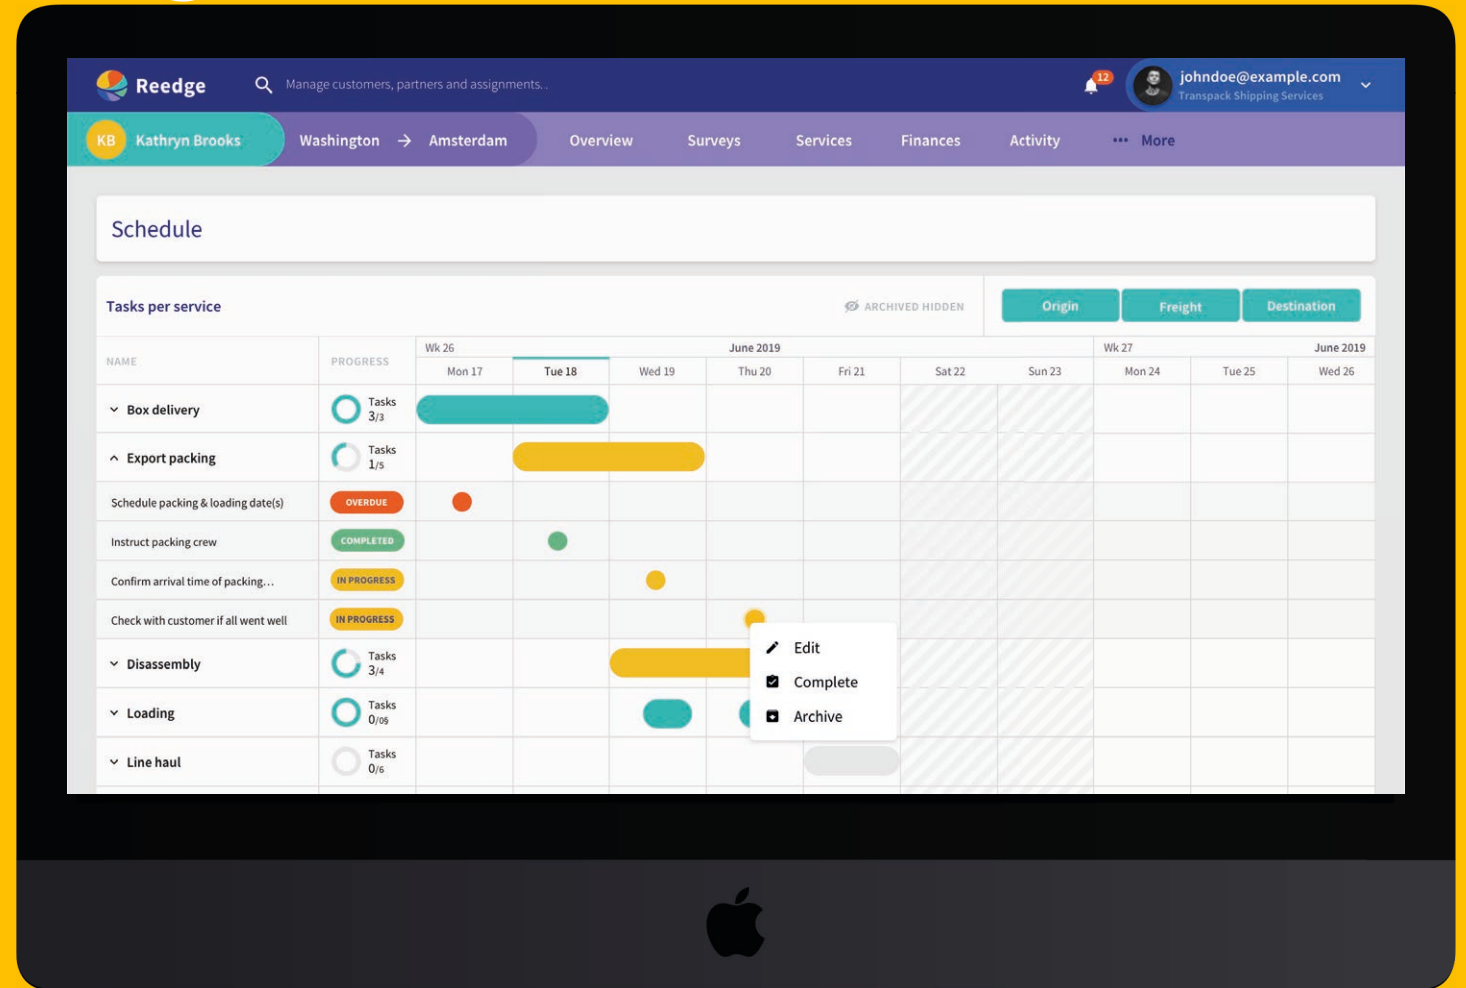

- Quickly send messages to your colleagues, partners or your customer
- Assign tasks to each other
- Share documents, quotations and invoices
- Create overview with an Activity Feed for the entire move, allowing you to track everything that has happened during the move
- Get notified of new messages through in-app notifications and email
- Provide your customer with a user-friendly Customer Portal

Assignment planning

Plan services and tasks straight while keeping overview and control:

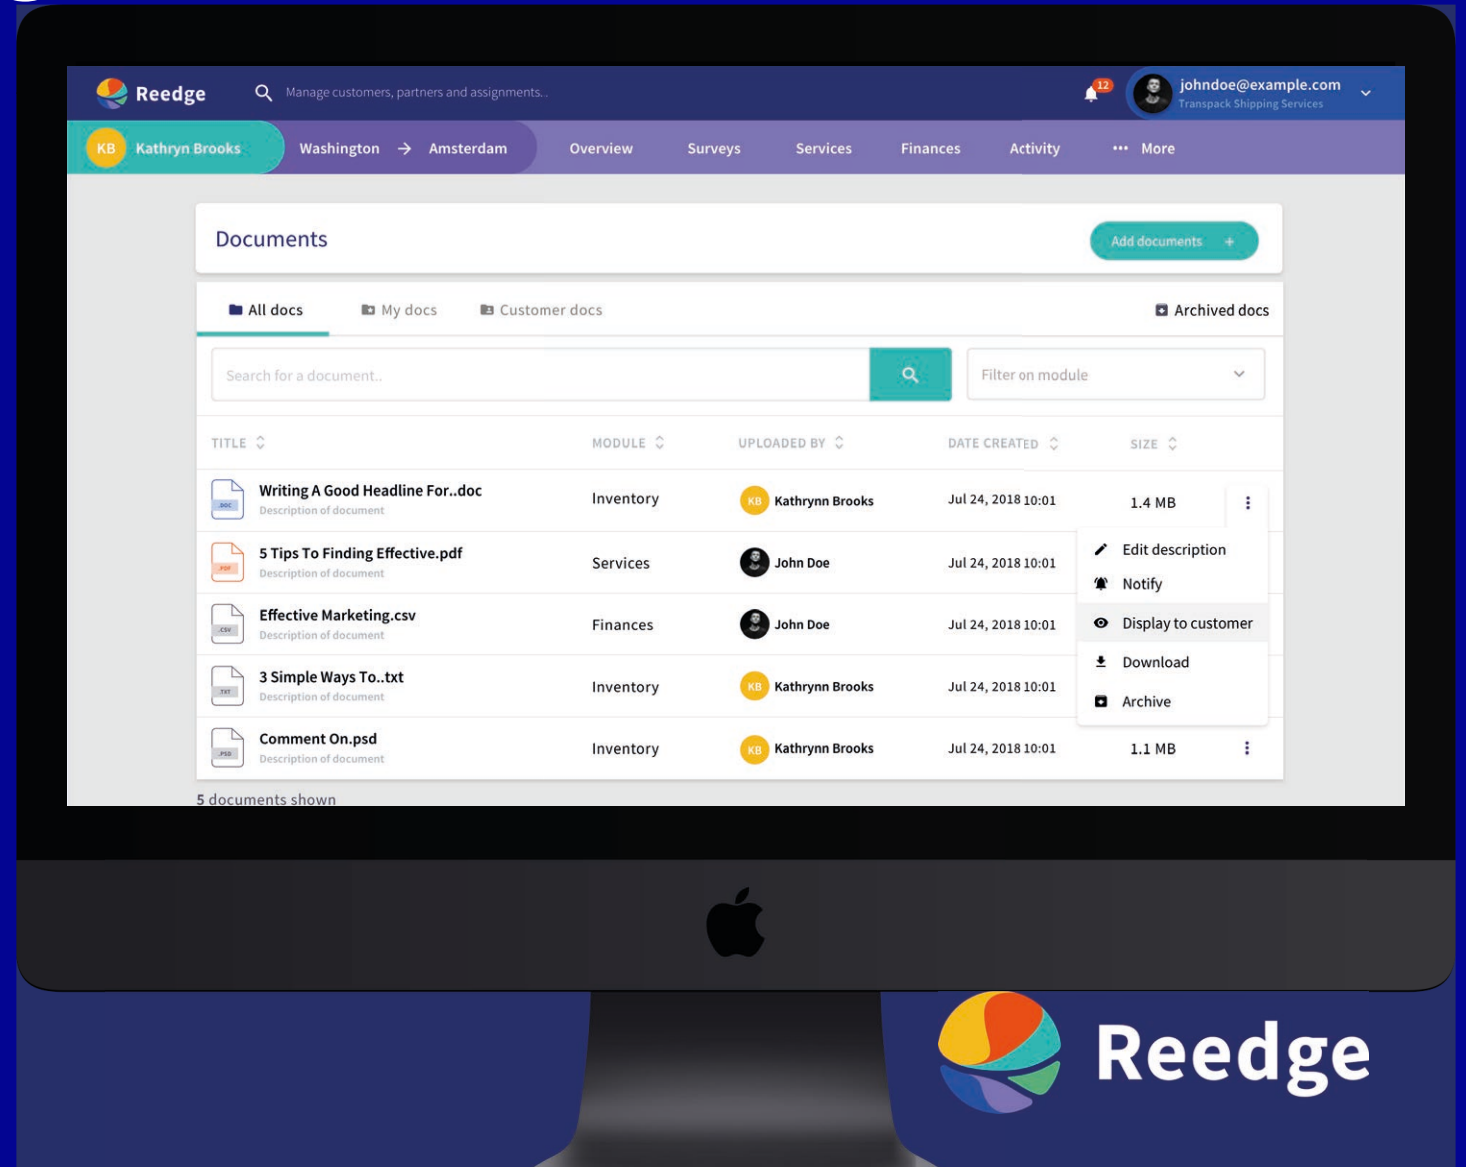

- A planning overview with all services in your assignment is automatically created when your quotation is accepted
- Tasks in your default workflows are automatically included in your planning
- Schedule services and related tasks directly from the overview screen

Document management

Centrally store and manage every assignment's documents:

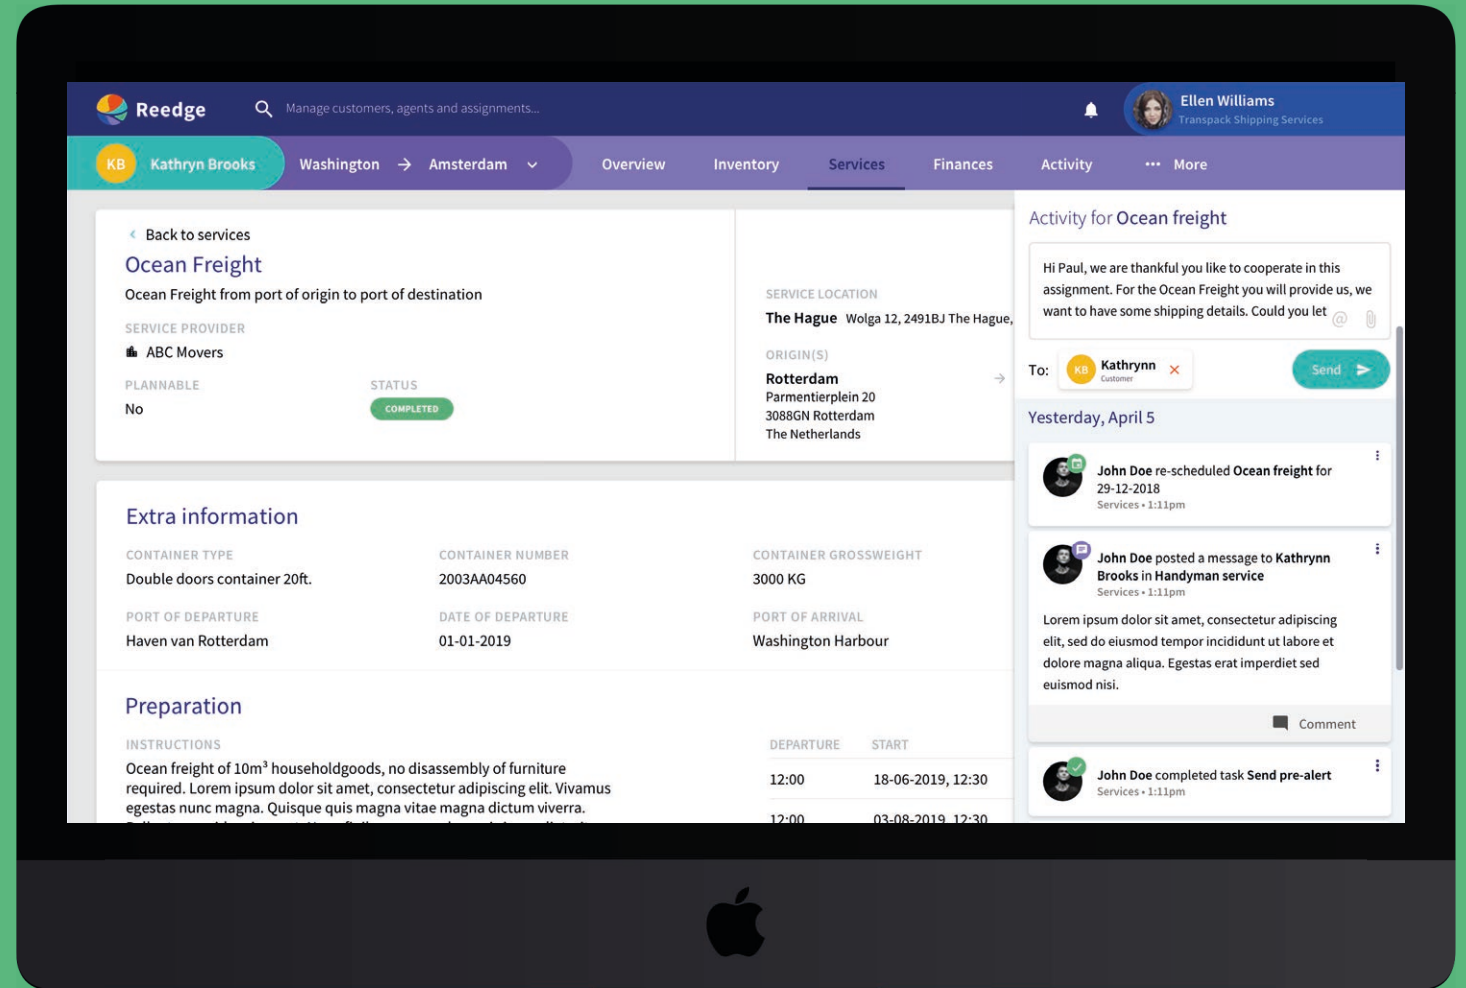

- Upload documents related to the assignment in one central location, accessible to you and your colleagues
- Documents you create in Reedge, such as quotations and invoices, are automatically placed within this section
- Easily categorize documents
- Quickly notify a colleague of a certain document
- Choose which documents you want to make available for your customer – and remove access again if needed

Moving features

Manage every move in the best possible way:

- Have a complete set of move services at your disposal – or create your own services with our admin tools
- With support for sea, road and air shipments – at origin, transit and destination levels
- Enjoy a large set of pre-filled moving industry agents from across the globe
- And add your own preferred agents and contacts if you want to!
